AIT Accredited • Luxury Professional Starter Kit Included • Live Practical Training

Professional education designed to give you the knowledge, practical skills and confidence to begin developing your career in Lip Blush.

Course Overview

This two-day accredited Lip Blush Training course combines essential theory with hands-on practical education. Training is delivered in a small-group environment with a maximum of four students, allowing for focused guidance, questions and individual support throughout.

The course is designed to build strong foundations in consultation, lip assessment and mapping, colour and pigment selection, machine and needle knowledge, safe working practices, technique and client care. Students progress from theory and practice work to practical model experience, followed by case studies after training.

What You Will Learn

- Health, safety, hygiene and professional working practices
- Client consultation, contraindications and treatment suitability
- Lip assessment, symmetry and identifying natural lip shape
- Lip mapping, pre-draw and creating a clean, balanced outline
- Skin and lip considerations that may influence treatment and healed results
- Colour theory and professional pigment selection
- Understanding undertones, colour correction and neutralisation principles
- PMU machine setup and safe handling
- Needle cartridge knowledge and selecting suitable needle configurations
- Correct hand speed, machine speed, pressure and depth
- Stretch, positioning and controlled pigment implantation
- Creating even, soft and beautifully saturated Lip Blush results
- Practice on latex / lip practice skins
- Preparing for and carrying out live practical model work
- Aftercare, healing stages and managing client expectations
- Understanding healed colour and the top-up process
- Treatment photography and presenting your work professionally

Your Two-Day Training Experience

Day One - Foundations, Colour & Technique

Theory, health and safety, consultation, contraindications, lip assessment and mapping, pigment and colour theory, needle knowledge, machine setup and extensive practical work on practice skins.

Day Two - Practical Application

Technique refinement, preparation for client work, practical/live model training, colour selection, aftercare, photography, healed-result expectations, assessment and preparation for your post-course case studies.

Training is typically delivered from 10:00-17:00 across both days, with a lunch break included in the training schedule.

After Your Training

Students are required to complete **3 case studies** following training. These allow you to continue developing your technique, colour selection, mapping and confidence while demonstrating your understanding of the treatment.

Support and feedback are provided while you work through your case studies. Certification is awarded following successful completion of the required training and assessment process.

You will also receive guidance around the client journey, healing, aftercare, healed colour and the importance of the follow-up/top-up stage.

Your Luxury Professional Starter Kit

Your course includes a professional starter kit to help you continue practising and developing your Lip Blush skills after training.
